Dear Lily Anne and PAARA Members,

Jamie, Beth and I want you to know how much we appreciate for your sympathy and concern in this tragic time in our lives. Now that more time has passed, the reality is sinking in that this terrible nightmare is not going away.

Thank you very much for your memorial gift. We hope it will go far to help preserve the wildlands that John, Rachael and Ozzie loved so much.

Sincerely and 73,

Dear Radio folks:

On behalf of the Alliance for the Wild Rockies (AWR) and the Walkin' For Wildlands project, I would like to express our thanks for your recent contribution in memory of John Sidells.

We extend our thoughts and prayers to his family, and know that John's life has given us strength as we work to protect the wild country that he so loved. We are happy to be working with Rachael as she continues on the Walkin' For Wildlands trek.

I've enclosed some information on AWR and our efforts to protect the Northern Rockies. Please feel free to contact us if you would like to discuss any aspect of our program. Again, thanks.

With best regards,

LEGISLATIVE ALERT VIA J. KD6PBH

It's time to write those letters again!! On May 20, 1993, the U.S. House of Representatives joined the Senate with the introduction of a resolution supporting Amateur Radio. The language of H.J. Res 199 and S. J. 90 is identical. They discuss the role of Amateur Radio in emergencies. They tell how Amateurs work as technical innovators, who push back the technical frontiers, who discover much about radio propagation, and who develop practical and affordable alternatives to complicated expensive new equipment from our laboratories.

Mail from home is important to Senators and Representatives. It lets them know what is on the minds of their constituents. There are a large number of these resolutions that members of Congress are asked approve like *National Pickle Week*. Good letters from constituents in support of S. J. 90 and H.J 199 can ease any potential stigma about the resolutions. The letters you write need not be long. The reasons to support the resolutions are contained in the bills themselves, but if you can add a personal emergency service episode or a technical contribution of the writer, it would really help to influence the Congressman and the Senators.

Your Senators and Representatives are listed in the U.S. Government section of the telephone book. They are published regularly in most newspapers. If you are not sure which of several Representatives is yours, just call any of them armed with your Zip Code. They will be able to tell you the name of your Representative.

Now is the time to write your letters for support of S. J. Res. 90 and H. J. Res. 199. Last year many of you wrote letters in support of H. R. 73 and S. 1372. Your help is needed again. As in the past, please send copies of your letters to Perry Williams at ARRL Headquarters. When Perry gets a sufficient number of letters from constituents, he has a reason to contact the office of the Senator or Representative and make a visit. Please write. These resolutions are good for Amateur Radio.

WB6NNL / SK

VIA STEVE K6FS

On June 21 Ralph Ryan, WB6NNL, went SK. Ralph, a longtime PAARA member, was active on satellite and vhf/uhf communications. On June 22, 1985, Ralph, Bill W6SAI, and Steve, K6FS, inaugurated local official opening of new WARC 24-Mhz band, working five stations across U.S between 0007Z and 0025Z that afternoon.

Antenna was a novel quarter-wave vertical consisting of a golf-ball retriever (tuned to mid-band 1/4-wave length) supported on a coke bottle base insulator, ground-plane formed by the roof of his aluminum garden-tool shed. It did well enough for contacts into New England and southeast U.S. Funeral and interment services for Ralph were held Friday, June 25, 1993. Ralph was 83 years old. — Steve, K6FS
